Learn How to Use Panda Chopsticks!

Materials:

- Chopsticks
- Chopstick wrapper
- Rubber band

We know it can be hard to learn how to use chopsticks, so we have just the trick to turn our regular chopsticks into a training set to get you going.

1 Start by unwrapping the chopsticks and breaking them apart.

2 Fold and roll the paper wrapper all of the way up – make sure it's rolled up tightly!

3 Insert the folded paper between the end of the two chopsticks.

4 Wrap the rubber band around the chopsticks just underneath the paper. Criss cross the rubber band around both sides until it's tightly holding the chopsticks together and the folded paper in place.

5 Now you're set! Go enjoy some yummy Panda Express with your new chopsticks!
